

After Graduation

■High employment rate & career decision rate

There are a wide variety of ways for after graduating students. For example, employment, going on to school and to do artist activity. Students who wish to employment are offered from many companies every year, and we have achieved high employment track record. In addition, a career decision rate which the percentage of advancing in the path of hope for students, is also more than 90 percent annually in both the College of Art and Design and Junior College.

【R3 fiscal(2020 graduate) Employment rate】

College of Art and Design 70.3%

Joshihi college of Art and Design 67.9%

※Employment rate:(number of job finder) ÷ (number of job seekers)

【R3 fiscal(2020 graduate) Career decision rate】

College of Art and Design 76.8%

Joshihi college of Art and Design 86.9%

※Career decision rate:(course decider) ÷ (course reporter)

■Employment record of each fiscal year to the large and well-known large companies

We produce an annual human resources who can take advantage in companies to their technique and knowledge in art and design. Taking advantage of the skills and knowledge which have acquired in Joshibi University of Art and Design, we employed as designer positions and planning positions, and also it has been adopted every year in the comprehensive work and sales positions in recent years.
